A Warrior's Life: The Dalton Edwards Story

Synopsis

Dalton Edwards has battled cancer for four years, inspiring those closest to him and complete strangers all over the world to "Pray for Dalton" and follow his journey on social media. His fight began when doctors discovered a 12-pound tumor in the teen's liver while trying to determine the cause of a spike in his blood pressure. Dalton's effort and determination to return to the soccer pitch and football field, through multiple surgeries, several rounds of chemotherapy and radiation, and his desire to inspire others who are battling cancer are chronicled in this biography.

Customer Reviews

I've known Dalton's story in a cursory way because our grandson played in the same soccer clubs two years behind Dalton. I have read the mom, Geri's FB posts and wonder how she possibly carries on. [Dharma, the sister, seems almost too far removed from the storyline.] What this book did was present the journey in linear timeline so that the reader gets the full impact of four cancer diagnoses within 3+ years of a teen's life. Childhood and pediatric cancer is a scourge on our future.

I don't know Dalton, but have followed his inspirational story as my daughter's were also WIHS Warriors. This young man has more courage and faith than most 50 year olds I know. Thank you Dalton for sharing your intimate and inspiring story. You are amazing! Continued prayers for you and your brave family!

As a family friend, my heart soars with love and respect for this young man and his family who have endured so much with grace and fierce passion.

I haven't met this young man.....yet he lives with a spirit of God's blessings against all odds. You inspire me Dalton.....to appreciate life as it's gift...for that and so much more I love you! Thank you for reminding me to give it my best. Never forget my purpose and never give up.....a warrior for sure!!!!

Dalton and his family are such an inspiration. The author captures just how much Dalton has shaped his family and community not just these last few years but his entire life. Take time to read this book-- you will be pushed to dream bigger dreams and fight harder than you think possible for what is most important.

Beautiful story of courage, determination, and what it means to truly be family. The author brings to life the reality of Dalton's story and it's impact on a community.

Dalton is such an inspiration. Following his story and reading this book has enriched my life. Well written and personable.

I loved it! I read it from start to finish. This book is a window into the life of teenage athlete Dalton Edwards as he faces a rare form of cancer. Dalton's optimistic outlook and love of soccer remain strong, even when things get difficult. I love the way the author takes his time describing all Dalton's thoughts around sports (soccer, wrestling and football). His attention to detail and great descriptions, allow the reader to feel like they are there huddled in the locker room listening to Dalton confide in his teammates and there in the West Iredell High football stands as his teammate wears his jersey in his honor. Thank you Dalton and the Edwards family for your courage to share your story so intimately! You are an inspiration to me and others! I recommend this book even if you aren't one who normally reads biography, you will like it. (Reviewed by Karissa Miller, purchased on

passed-down Kindle)
