Customer Reviews

A book you will not want to put down. I have read the next two and I am anxious for the next one. Very well written and the detail is amazing. I felt like I was watching a movie instead of reading a book. You will love them all!

Another segment of the emerge story. I found this one rather sad.

Great short story with perfect pacing and interesting worldbuilding!

This definitely adds a couple of layers to the storyline. I am looking forward to the next novel even more now!

I love this whole series. And this could have made a great book or novella. Its very short (yes I know its short story but its too short!) Santi sounds like an amazing potential character and I'd love to see more of her in the next book. This has the feel of 2 discarded chapters

I am ready for Book 2. Headed to the Kindle store to get it now. Hope you enjoy it too.
