Customer Reviews

The Kindle Unlimited download for this book is only a small portion of the book! The walking tour map included is illegible; print too small to read without expanding and blurred when expanded. At the end of day three of the book you are directed to a web site where you may purchase the rest of the book. I suspect the \$0.99 Kindle version is the same. The entire table of contents is included so you can see what you are missing. I might have been tempted to purchase the book if it were not for the illegible maps.
