Customer Reviews

Ordnance Survey is Britain's national mapping agency, responsible for the official, definitive mapping of the whole country. They produce and market a wide range of maps for educational and leisure purposes, as well as producing computer data products for government, business and administrative use. --This text refers to the Map edition.

There are no equivalents to this detailed series from Great Britain. For walkers, the maps are of a scale and detail, that even minor paths, farm houses, fields, and small streams are shown. I would recommend these maps to someone to enjoy, spread out over their breakfast table, and who has no plans to travel to the area. You might change your mind.

The OS Explorer Maps are an excellent resource for hikers in England
