Be warned. If you are using this for self-study, you may be disappointed to learn that there is NO answer key given. You can't actually test yourself. The text was designed to be used by students. Presumably (but not on), there is a teacher's text. We haven't gone past the first chapter yet because we need to track down the answer key.

The book starts out fine, explaining the steps as it goes along. The guided practice sessions are great too. But what threw me off is the fact that there are no answer keys to many of the practice sessions that are in the book. What good is a practice session without an answer key? Hope somebody can provide an insight as to why this book is with out answers.

Don't buy this book. Not only are the answers not printed in the book, as many other customers

have complained about, but it is far outdated. The SAT has been changed since this book was published and there are many other versions out there that are more current and just as effective, such as those made by Kaplan, Princeton Review, and Barron's.

Hi I AM POONAM MOHANTY AND I WOULD LIKE TO SHARE SOME THOUGHTS ABOUT THIS BOOK. THIS IS ONE OF THE BOOKS I USED FOR MY SAT PREPARATION. IT HELPS YOU A LOT, THERE IS NO DOUBT ABOUT IT. I WOULD CALL IT THE EXTRAORDINARY BOOK.
