Customer Reviews

What an unexpected storyline for a mail-order bride! This love story is one of tenderness and learning to accept their differences and work together. I enjoyed this book and would like to read

more by Callie Gardner.

A great book. A young lady who lived with family was contacted by a man who forced her to go out west to marry a man she doesn't know so her family can keep their store and home. When she gets there she finds that the man is part Indian but married him as told. A must read for those who enjoy historical western romance kindle books from at a special price and from a delightful author who keeps me wondering what next for the characters.
