Customer Reviews

Horrible! Flash cards were basically the entire text book shrunk down; too much info on each card.

These flash cards are so nice to have! Very organized the way they did them! Really helps with my studying! I can't be happier and more appreciative organized study material is essential for me as I have kids too so going to school with kids is a challenge already at times. I got to try this item for my unbiased review. Homework time is already limited as being a mom always comes first!

I gave these as a gift to a friend who could get good use out of them. She said they are very good flashcards if flashcards are your jam. She recommended that you use them in addition to other study material including what you can find at your local library or university library. I received this product for free. The reason I received it for free is so I could review the product. I often review

products as a hobby and my reviews are my own honest reviews with absolutely no influence from the vendor or anyone else which is why I am able to continue to review products. For those who don't know, considers this to literally be the translation for stars. Please keep this in mind when deciding on a product. 1 star - I hate it. 2 stars - I don't like it. 3 stars - It's ok. 4 stars - I like it. 5 stars - I love it.

Flashcard system of study helps me remember. Received at a discount in exchange for review.
