Unwanted World: A Post Apocalyptic/Dystopian Survival Fiction Series (The EMP Survivor Series Book 4) (The EMP Survivor Series (5 Book Series))

Synopsis

In this instantly absorbing and thrilling series, bestselling author Chris Pike delivers another suspenseful and pulse-pounding adventure in the fourth installment of the EMP Survivor series. Nico Bell has been working undercover in San Antonio for over a year, trying to infiltrate a dangerous gang led by the mysterious Santiago. Desperate for a meeting with Santiago, Nico agrees to be a courier to pick up and deliver a package. It should have been easy, but easy isn't in Nico's vocabulary. EMP isn't in his vocabulary either, but it soon will be. Kate Chandler, who requires a service dog, desperately wants to forget her past. She works as a bartender at a historical hotel next to the Alamo in San Antonio. Young and tough, she uses the bar as a barrier so nobody will ever get close to her, again. There's a problem, though. Nico who has been staying at the hotel has seen through the ruse. He makes a promise to her he intends to keep, that is, until the EMP interrupts his well-thought out plans. A story filled with bravery and incredible courage, *Unwanted World* is a stunningly unique take on the chaos and the unraveling of society caused by the EMP. An epic tale with a twist on history and one with fascinating characters and electrifying intrigue proves once more author Chris Pike is the one to watch.

Customer Reviews

This is a must for anyone reading the Chris Pike series. I can't wait for the next book although it might be the final installment?!?! Hopefully he can be convinced otherwise. :)

This storyline is amazing. And this book leaves you wanting more. Have really liked all these books as the author is a very gifted storyteller.

Jolly good read! Can't wait until the next episode ties it all together with the rest of the series.

I finished book 4 and have enjoyed the entire series. I am looking forward to book 5 the final book which will be the wrap of this series. When I started this series I became intrigued because the characters were moving through a geographic area that I was familiar with. I

wasn't sure what to expect but it does not fall into the trap like a lot of this genre being overly political and too much paranoia and the action keeps going nonstop. While book four could be read as an independent story, I would recommend you read them in order. Each builds on the previous book and reading them all is important to the story development. The series starts out with father and daughter but each book brings across new characters that stand on their own. I did contact Chris about one area in book one and that I thought was left out, she was quick to write me back and informed me that it was intentional. When four was completed she let me know that she included that particular item in the story line. If you like this genre it is a good read and a really approachable author.

Kate presents a conundrum to Nico. A beautiful woman, working all hours in a Bar, a Service Dog that Never leaves her vicinity, a young woman with both wit and Grit!! A TRUE

Conundrum!!!NICOLAI, a government agent so deep into cover that he is unable to reveal who or what he does!! The only thing he is Certain of is his LOVE for this Conundrum. He goes through the Hell of losing his longtime partner to an EMP land then having to tell his buddies wife what happened!!!Nick returns to San Antonio to fulfill his mission and winds up in a war with gangbangers and then his erstwhile hangings employer!!!Kate saves his life in a gruesome way, but saves it nevertheless.They figure out that they LOVE each other and along with Kate's Service Dog RELOAD, they steal an older model Bell Jet Ranger to fly to Pare Island for a Well deserved

rest. This story really deserves at Least SIX PLUS RATING, it is entertaining, exhaustive and follows in the THREE F's Tradition (Family, FAITH, & FIREARMS)!!!!!!!

Chris Pike has done it again with this novel, the 4th in a soon-to-be-concluded series of 5, bringing to life the story of a group of survivors, both friend and family, who come together to make sure that life, decency, and humanity will go on. I can't recommend this book enough to those who enjoy post-apocalyptic fiction or to those who may be looking into the genre for the first time. This is truly, at its core, a tale of the indomitable human spirit and can be enjoyed by everyone with a fondness for the written word.

Being a Chris Pike loyalist, I purchased the Kindle version of this 4th installment the day it was available. Life and its peculiarities got in the way for several days, and it was late last night that I finally got to start *Unwanted World*. After a marathon night of reading interspersed with a few naps, I finished the book around 10 A.M. today. Chris Pike you knocked this homerun out of the park. The book is riveting, with complex character development and plot twists and turns. I will never view the history of the battle of the Alamo in the same light. In fact I want to return there and view the sights anew. This book stands alone. It's magnificently contrived. You done good.

I was so glad to see this book was out. I loved it so much. The way this author writes is brilliant. I loved the way the author let us see into the dogs thoughts. Too dang cute. Cannot wait for book 5. The writing in this book was a little different than the first 3. I think because of the dialogue. Loved it even more.
