Customer Reviews

Brought back memories. Nice selection of songs with good arrangements.

Nice to be able to play along with my husband while he plays the guitar. Some of the piano music is difficult, especially with four sharps. But with practice I will get the hang of it again. My husband loves it. I think it's OK so I gave it four stars.

Nicely presented

I have always liked John Denver's music. This book gives me the information I need to play the songs.

I thought there would be more songs and that it would be written in the style of sheet music for piano with, both, right and left hand notation.

Great songs from the legend himself. Just like John Denver, they are great songs.

Love John Denver....now I can sing along.....

Songbook in great shape for a book this old. Shipping was fast...Will do business again with this company.
