Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Very fun map. Not much to say that you can't tell from the picture and dimensions provided. The paper was of adequate quality. I bought the tubed version, so, no folds or anything.
