Consumption Of Kuala Lumpur (Topographics)

Synopsis

Kuala Lumpur is the postmodern city writ large, a city that, within the short span of a decade, has been transformed from a sleepy capital into a technological marvel with a thriving, diverse and affluent cultural life. Using anecdotes, classic Malay myths and tales, and observations based on real and imaginary wanderings through the city, Ziauddin Sardar traces Kuala Lumpur's origins and charts the remarkable changes experienced by the city and its people, including both the recent economic crisis and the vicious power struggle between Prime Minister Mahathir Mohamad and his ex-Deputy Anwar Ibrahim. Sardar shows how a collision of cultures (Malay, Chinese, Indian, indigenous, Western) has developed and re-emerged in the form of a new synthesis, inducing both a degree of disorientation and a unique sense of energy and excitement.

Ziauddin Sardar is a writer, broadcaster and cultural critic. The author and editor of numerous books, he is Visiting Professor of Postcolonial Studies at The City University, London, and contributes regularly to the New Statesman.

This book is an absolute pleasure to read, a tasting menu of modern life in the Klang Valley, Malaysian history and Malaysian culture. An outsider who has lived here on and off for years, Ziauddin celebrates all that is uniquely Malaysian without pulling his punches when he chooses to

throw them. After you have spent even one day in KL, if you are the literary type, I urge you to buy it. This is one of the best books I have ever read, period -- although I don't think it would mean much to someone who has never been in Malaysia.

In the guise of a book examining the growth of Kuala Lumpur (KL), the author explores Malay legends and stories for what they show about national culture, as well as discussing recent Malaysian history up to Anwar Ibrahim's show trial and imprisonment. For an outsider with some knowledge of Malaysia, the book is excellent, and challenges many assumptions about Malaysia, and its current leadership. I suspect, but do not know, that its treatment may be superficial for a more knowledgeable reader,

I really enjoyed this book. Sardar gives a history of Kuala Lumpur told against a background of Malay proverbs and fables, and a good narrative of the political happenings in Malay politics of recent years. His descriptions of KL are right on, and the thorough understanding that the author has of Malay culture really enhance this book. Very readable and well-written.
