Rare Book

I knew there were many paths / routes to Camino de Santiago, but didn't know there were also many bike paths! So which one to take? This book leads you through the country avoiding as much as possible the busy roads, which is what you want, so I am thinking of doing it exactly the way the author recommends. The directions seem simple, I hope one does not get lost, in any case, one can always ask, and it's not just about the destination, it's about the journey, El Camino ;-)
