I am a Grandma and I absolutely love reading this to my granddaughter! It holds her attention and she tries to read along with me. The illustrations are wonderful and I'm sure we will be reading this book for several years to come!

These Little Golden Books remind me of when I was little, so I bought them for my nephew. He can't read yet, but loves playing with them! I word of warning, that these are of course paper, so little ones like tearing the pages.

This book is amazing! My 4 year old absolutely loves reading it. Since grandma lives in another state, it helps bridge the gap between us and maintain their closeness in between visits.

Gift for my nephew. I absolutely love these Little Golden Books. Definitely will keep buying these books. Great books for children and bedtime stories.

I grew up on the golden books, had to buy for granddaughter. Thank you.

Gift for a new grandmother in the family. She loved it.

My granddaughter loves this book and the story and pictures are perfect for what our times together are like. (Even if it is a grandson in the pictures)

Loved this book and so did my grandchildren!
