Unscrambled - The Ultimate Anagram Solver For Scrabble, Words With Friends, And Most Popular Word Games! (Word Buff's Totally Unfair Word Game Guides Book 3)

Synopsis

Many of the world's most popular word games are based on anagrams. In this volume you can find the anagrams, if they exist, of ANY set of 4 to 8 letters. This makes this anagram dictionary perfect for addicts of Scrabble, Words With Friends, Bananagrams, and dozens of other unscrambling games and puzzles.

Customer Reviews

This is my 3rd Totally Unfair Guide purchase, and I love them all, but this one just might be my favorite. It's so easy to use. Just type in the letters you have for Scrabble or Words with Friends into your Kindle (in alphabetical order) with a : after the letters, and you get words to beat the pants off of anyone you're playing. Also, if you want to know if the word has anagrams, just type the word in, the book is searched, and then PRESTO! You see all the words. (BTW, anagrams for PRESTO that I just looked up: Opters, poster, repost and tons more!) It's so awesome! I feel like a total geek, but I can't help just typing in random letters and words and seeing what comes up. This is so COOL. I can't wait to get onto Facebook, and start winning! A technical note: I was so eager to use the guide

that I tried to search for words about 1 min. after I downloaded the book. I get an error message saying that my Kindle hadn't indexed the book yet, but within 5 min. the book was indexed, and I was looking up words. The format looks great and is easy to read. Can't recommend this enough. Love the info and this type of book electronically is totally brilliant!

After jumping thru' a few hoops and driving myself insane searching, I decided I should have taken advice from some experts and just stayed with my Google product, Word Search. \$2.99 is not such an awful price to pay for a lesson well learned...When you take the time to read a review, PAY ATTENTION...!!

I liked the concept which organizes letters into alphagrams and tells the words that can be made, but the delivery [Google Reader] doesn't work since I can't search it. Moving one page or randomly through the book is frustrating. This might be useful in book form where I could look it up, like a dictionary, or in another reader, but just a page after page list of alphagrams with their unscrambled words is not useful - to me.

I don't have this item yet.

This is a great little book especially for people like me who are addicted to word games!! recommend it to all wordies!

As an occasional scrabble player, I'm always looking for ways to improve my scores. This e-book is a great choice for beginning or practiced scrabble players. Use this information to get better scores and your opponents will wonder how you do it.

Simple to use, with lots of different anagrams for many of the words I've looked up, using the simple instructions at the beginning of the book. I love getting Derek McKenzie's " Word of the Day" on my Mac every day, so it's like I'm asking a really clever friend to help when I'm stuck!

Thanks, MC
