Customer Reviews

My mother has recently been diagnosed with psoriasis and we have been struggling with ways to treat this and make this more manageable for her. Because of her age, we are reluctant to add anymore prescription medications to her regimen so would prefer natural-type remedies. I just read author Nancy Daxi's book on Psoriasis Treatment and it is full of helpful and effective strategies to treat this skin disorder through such things as diet, lifestyle changes, and natural remedies. I found Daxi's book to be very well-written and well organized and can attest that these remedies are already making a difference for my mother.

My sister told me about this book and said I just had to grab a copy, so I did. I am so glad that she told me about it because this book is absolutely packed with natural ways to rid yourself or at least manage your psoriasis. I have dealt with this for years and I'm so tired of trying different meds and creams and nothing seemed to work. I have started by implementing a few of the diet change tips and it seems to be slowing down, so I am hopeful that all the other remedies Ms. Daxi gives will be just as rewarding. Thanks to my sister and Thank you very much to Ms. Daxi for taking the time to research all of this stuff for me.

I was hoping for more specifics on natural treatments and diet changes. This book seemed very general and full of typos. Just not very helpful.
