Delighted with this rice recipe book. I've always loved cooking with rice having had an award winning rice recipe handed down through the family and using brown rice as a healthy meal base staple. I discovered many new ideas that I will use in this book. I especially loved that the meals are not only delicious food combinations they are nutritious, affordable, and easy to prepare. A well deserved 5 star for this one.

I love rice but had never really considered it as the main event in a meal. This book has really changed my mind with its great range of mouthwatering recipes and the author's zany sense of humour!

The breakfast burritos were amazing. I really loved this book. The recipes are easy and delicious!

I'm a big fan of my slow cooker and rice cooker. They're unexpectedly versatile in the kitchen, easy to use, and so convenient when you want to make a meal without a lot of time and effort. For the busy cook, this author's books are a life saver. This particular cookbook is full of great recipes that use a lot of my favorite flavors. Although I'm not a vegan, these recipes will come in handy when I'm looking for a little more easy variety after a busy day. These recipes are also easily customized and varied, which is always a plus. I'll never be stuck for dinner ideas now. Highly recommended!

The curry rice and mushroom pilaf are my favorites. I use chicken broth always instead of water (if you are vegan you could use vegetable broth) and it comes out great every time.

This is a really great vegan rice cooker book that carnivores will enjoy. Has 50 recipes that covers a wide range of meals from breakfast to dessert.

just ok, I got this as a gift along with a rice cooker.

My daughter loves this book, she has made several of the recipes.
