## Customer Reviews

The entire Bernstein series were great for my toddler. Having a bunch of books with the same characters help draw him in and keep him entertained more than others.

My five year old son LOVES this book and reads along with me!!! Definitely recommend this book!

WHO doesn't love the Berenstain Bears!? These are household favorites! And there seems to be one for almost every occasion. I get them for my kids as the situation calls for it. First day of school, Too much TV, Chores, New Baby, easing..... you name it. My 4 yr old is going to be getting a few of

these for Christmas this year!! Cause Santa knows what's up!! ;)

My 3 year old grandsons love the Berenstain Bears books and this is no exception.

kids liked it

One of my wife's favourite books as a child. We bought these for our potential future children, but are loving the read down memory lane. Arrived quickly and in excellent condition.

Great for getting your lil cubs over their fear of the dark- or really setting it deep in their consciousness. Either way, passes the time

My two year old is totally into this book right now. She's in a fear of the dark phase and this book helps her, I think. She has asked for more Berenstain Bears books!
