Customer Reviews

Great title and that is it. At 69% the author wants you to make a purchase to finish reading the book. One option was to purchase an iPhone. I did not buy this book so I could purchase an iPhone. There were other purchases the reader could make in order to continue reading the book. This should not be allowed in a Kindle book. If a reader purchases a book, he, she should not have to make additional purchases in order to continue reading the book. Maybe I am a dummy and did not understand the instructions. If that is the case you need to rewrite the instruction at 69% so readers don't think they are in the middle of scam. Sorry, but I asked for my money back on this one.
