Synopsis

ASTRAL PROJECTION MASTERY 3rd EDITION: Powerful Astral Projection And Astral Travel Techniques To Expand Your Consciousness Beyond The Physical !Bonus inside, get it today as available for a limited time.Are you interested in exploring the spiritual realm ? Do you want to uncover the mystery surrounding the astral plane ? Do you want to achieve an incredible astral projection experience ?Astral Projection Beginner's Guide offers an exclusive look inside the realm of the spiritual world, which is largely unknown to many individuals in today's society.The techniques explained in this book are very clear and doable, requiring no specialized knowledge and no mystic powers. They are techniques that you will find, at face value, too ordinary to believe. Yet once you get to practice them you will clear any doubts you ever had about ordinary people doing extraordinary things. You will be a living testimony that all you need is basic but important knowledge to do what a mystic can do in terms of astral projection. In this book you will learn:What Astral Projection entailsHow different astral projection is from an ordinary dreamHow to prepare your body and your environment for astral projectionThe different ways you can learn to project your spiritual energies beyond your bodyThe kind of people who can succeed in astral projection The best time for planned astral travel If there are specific times when you cannot take an astral travelAnd much, much more..Want to find out more ?Download your copy today!

Customer Reviews

I don't know hat I'll ever be brave enough to attempt astral projection, but if I were I'd start with this guide. The conversational tone of the author makes it seem as though the only thing standing in the way of such out of body experiences is our own refusal to accept the possibility. The book offers several techniques to not only begin the process of attempting, but to also successfully astral project and return to your body. The author doesn't turn it into some magic show with smoke and mirrors. There aren't any "tricks" so to speak. Everything in he book is about going through the process of gaining confidence in your abilities so that you can go from walking around your bedroom to visiting another state through astral projection. I'd love to know the outcome of anyone who tries it!

Wonderful book. Very instructive

Great read

Although personally never hearing of astral projection curiosity more than anything made me read this book. I found the possibility of astral projection though definitely new age thinking intriguing filling me with more than a casual interest. While I question whether one can really see into the future or not the possibility of seeing beyond our own consciousness into the spiritual plane and leaving our own bodies was powerful. Enlightening, informative and detailed I found Jordan's book explaining the techniques and preparation awe-inspiring. I was enthralled in understanding the different planes that make up our human natures, timing and the rumors of the risks involved. So if relaxing your spiritual body and traveling in astral mastery is your destination than "Astral Projection" is the perfect tour guide.

It's simple, not mistified book about astral projection. Not sure if it would be usefull for those new to AP. It does not contain long descriptions and explanations so you should know something about the subject before reading this book. I did not have AP myself, but it definitely helps for deep relaxation and I did have some interesting and rather scary physical phenomena while doing the exercises.

The average person either isn't aware of astral projection or simply chooses not to believe its validity. However, after practicing lucid dreaming and successfully having an out-of-body experience, I thought there might be something to this. This guide on astral projection was just \$0.99 when I got it, and I found it to be pretty informative. I would recommend it as a resource for anyone who might be interested in trying this, as it explains in detail many proven time-tested methods to venture out into the astral plane. Definitely worth the price.

This book is about astral projection meaning leaving your physical body while you are still alive and breathing and enter a whole new world. You will also learn from this book, that your life exists on another planes and that you don't disappear after your physical body ceases to exist. You will be able to enter the astral plane. Also this book helps you with understanding and preparing with simple techniques for astral travel. In my opinion if you don't believe in astral projection, you should still read this book and try to understand it so you can have arguments on both side of the case. I truly believe that this book has a lot of great insides and for that I recommend to anyone who is interested in the subject.

Good products!
