Integrative Dermatology (Weil Integrative Medicine Library)

Synopsis

Skin health has taken center stage for health care practitioners and patients alike. Not only has skin cancer quickly become the number one form of cancer in the United States, with 3.5 million cancers diagnosed in over 2 million patients annually, but concerns about sun protection and healthy aging have dominated both public media and individual patient concerns. As the largest and most visible organ, the skin displays all evidence of health and vitality, both real and perceived, thereby conferring a tremendous amount of psychological burden on those afflicted with cutaneous ailments. Clinicians are thus charged with the important task of caring for the whole person, mentally as well as physically, to achieve therapeutic success. Integrative Dermatology is the first comprehensive text in this growing field which strives to examine and combine best practices from both traditional medicine as well as complementary and alternative healing modalities such as: diet, supplements, and mind-body medicine. The book presents key concepts for synthesizing the best, comprehensive care plan for each individualized and contextualized dermatology patient.

Book Information

Series: Weil Integrative Medicine Library

Paperback: 552 pages

Publisher: Oxford University Press; 1 edition (March 12, 2014)

Language: English

ISBN-10: 0199907927

ISBN-13: 978-0199907922

Product Dimensions: 9.2 x 1.2 x 6.1 inches

Average Customer Review: 4.4 out of 5 stars 3 customer reviews

Best Sellers Rank: #253,682 in Books (See Top 100 in Books) #37 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Dermatology](#) #55 in [Books > Medical Books > Medicine > Internal Medicine > Dermatology](#)

Customer Reviews

"The concept of presenting these alternative medicinal approaches is a good one. ... [T]his book opens our eyes to new avenues that will only continue to expand. We owe it to our patients to at least be familiar with these concepts." --Doody's Health Sciences Book Review

RN: Associate Professor, Nova Southeastern University College of Osteopathic Medicine and

University of Central Florida School of Medicine, Integrative Dermatology Lecturer for the AZCIM Fellowship; PS: Professor of Dermatology and Cutaneous Surgery, University of South Florida, Tampa, FL; RR:Assistant Professor of Dermatology,SUNY Downstate Medical Center, NY, NY

I am a clinical dermatologist interested in holistic and integrative medicine. There are not many texts geared toward dermatology for physicians. The information on supplements and topical products is good, evidence based. Would like to see more on specific supplement regimens and where to find and compound topically.

Great condition

A very good book. Needs new editions reflecting more recent research.
