The Princess In Black And The Hungry Bunny Horde

Synopsis

It's a case of monstrous cuteness as the Princess in Black encounters her biggest challenge yet: a field overrun by adorable bunnies. Princess Magnolia and her unicorn, Frimblepants, are on their way to have brunch with Princess Sneezewort, an occasion Frimblepants enjoys more than anything in the world. But just when he can smell the freshly baked bread and the heaping platters of sugar-dusted doughnuts, Princess Magnolia's glitter-stone ring rings. The monster alarm! After a quick change in the secret cave, Princess Magnolia and Frimblepants are transformed into the Princess in Black and her faithful pony, Blacky. But when they get to the goat pasture, all they can see is a field full of darling little bunnies nibbling on grass, twitching their velvet noses, and wiggling their fluffy tails. Where are the monsters? Are these bunnies as innocent as they appear?

Gr 1-3 "Princess Magnolia and her faithful pony Blackie are just about to join their friend for brunch when Magnolia's monster ring goes off, alerting her to a new threat. When she reaches the pasture, she doesn't see any monsters, just a bunch of cute bunnies. However, these bunnies are more than meets the eye, eating absolutely everything in sight, and the Princess in Black will have

to count on her friends to help save the day. This is the Princess in Black's cutest adventure yet and it will be most appreciated by those who have already been introduced to her in the previous books. Full color illustrations bring the action (and cuteness!) to life. Children who like funny adventure stories will eat this one up (pardon the pun). --This text refers to the Hardcover edition.

Pham's watercolor-and-ink illustrations add to the humor by playing with the stereotypes the text exposes. It's also nice to see Blacky's considerable skills on display. This third series installment is sure to be popular. "Booklist Online Well-executed and very funny." Kirkus Reviews

The Hales have created another winning book with *The Princess in Black and the Hungry Bunny Horde*. Princess Magnolia presents a tough picture when she dresses up and tackles monsters as the Princess in Black. But she is as susceptible as anyone to cuteness, and the horde of bunnies she faces in this book are utterly adorable. It's funny to read about the goat boy's efforts to convince her that the bunnies aren't as sweet as they are cute, as they devour everything in sight, including a goat horn and a complete tree. But interestingly it isn't the Princess in Black who saves the day, which adds a nice twist to the story. The bunnies scaring off the other monsters is pretty funny as well. Pham, as in the other Princess in Black stories, steals the show with her gorgeous illustrations. A surefire winner for young readers who enjoy princess stories or superhero stories or both. This continues to be one of my favorite series to read and share.

I got this for a struggling third grade reader. She loved it. We read the whole series. Then I brought it home and read it aloud to my five year old daughter who absolutely LOVED them. We read them all (again), Our public library happened to have a Princess in a Black event this summer - my five year old was too excited. We went and she was able to talk all about the books with the "bigger girls". The bright colorful illustrations do assist as context clues. There are also lots of opportunities for predicting/infering. While this series may not go down in history as great literature of our time - it got two different aged girls (5 & 9) to enjoy reading. That's a success in my eyes! We can't wait for the next book to come out in September!

Fun characters. Cute storyline. These books have been inhaled by my 7yo. over and over again. I'd say we have another collection to add to the bookshelf. I'll keep my eyes out for what comes in this series.

My first grade "reluctant reader" loves this series. Super appealing story for kick-ass little girls who are not interested in the other damsels-in-need-of-rescue type princesses. The story is exciting and the full color illustrations are very engaging.

My daughter loves this series! She's 6 years old and a little bit of a reluctant reader. This series totally keeps her interested and she is able to read through the entire book in about an hour. I love the man character and how she goes from a touch frilly princess to a super hero. It has a great message for girls who are beyond the typical barbie Disney princess type.

My six year old really enjoys The Princess in Black. We have bought all four books that are currently available and are looking forward to the fifth in the series. She likes that they are chapter books with great illustrations. The Princess is an awesome character with grace and charm and a kick butt attitude when needed!

This is a great series of books! My 7 yo daughter loves them, and reads them over and over again. This is the story of a dainty princess whose alter-ego secretly defends the kingdom. The idea of combining a princess and a strong, capable heroine is pure gold for little girls. It is the feminine equivalent to all the super heros (Batman, Superman, etc.) that little boys look up to. My daughter eagerly awaits each new installment impatiently, and devours it as soon as it arrives. I confess that the story line of this third installment, with aliens who look like bunnies, wasn't as compelling as the first two books. At least not to me - but my daughter didn't seem to notice, and that's what matters. Still worth five stars, and highly recommended.

My 5 year old granddaughter loves the Princess in Black stories. They are set in a short chapter book approach that she loves to have read to her at bedtime by mom and dad. She is into princesses and super heroes right now so these stories are the perfect mix. The illustrations are wonderful and the stories are written in a way that makes her look forward to bedtime!
