Coupling Of Biological And Electronic Systems: Proceedings Of The 2nd Caesarium, Bonn, November 1-3, 2000

Synopsis

With the F caesarium, that was held in Bonn in November of 1999, the newly founded research center caesar (center of advanced european studies and research) has initiated a series of symposia, which are to bring researchers together for discussions and definition of positions on the various research fields at caesar on an annual basis. The areas of research at caesar incorporate materials science/nanotechnology, coupling of biological and electronic systems and ergonomics in communications. In November of 2000, the 2 caesarium, this time with the theme of "Coupling of Biological and Electronic Systems" was held in Bonn. The conference transcript at hand delivers an impression of the introduced topics and discussions. The coupling of biochemics and electronics together with bioinformatics is an exciting and current thematic complex, which will surely co-define the development of science and research for a long time. The presentations held at the 2 caesarium gave a glimpse into broadly diversified areas such as bioinformatics, biomolecules and biosensor technology. Further miniaturisation up to the nanoscale played as much of a role as the conception of fast algorithms for the structural reconstruction of proteins. We would like to thank the participants of the symposium for the inspiring discussions in a not always easy interdisciplinary dialogue. Thanks to the organising committee, the colleagues Michael Famulok, Daniel Hoffmann, Michael Moske and Eckhard Quandt, the symposium became a success.

Book Information

File Size: 3107 KB

Print Length: 126 pages

Publisher: Springer; Softcover reprint of the original 1st ed. 2002 edition (October 4, 2013)

Publication Date: August 26, 2002

Sold by: Amazon Digital Services LLC

Language: English

ASIN: B0013POPJI

Text-to-Speech: Enabled

X-Ray: Not Enabled

Word Wise: Not Enabled

Lending: Not Enabled

Enhanced Typesetting: Not Enabled

Best Sellers Rank: #4,446,964 Paid in Kindle Store (See Top 100 Paid in Kindle Store) #82

in Books > Science & Math > Biological Sciences > Bioelectricity #2067 in Kindle Store >
