Mustang Man (Louis L'Amour)

Synopsis

In *Mustang Man*, Louis L'Amour takes Nolan Sackett on a dangerous journey into family betrayal, greed, and murder. When Nolan Sackett met Penelope Hume in a cantina at Borregos Plaza, the girl immediately captured his attention. That she was heir to a lost cache of gold didn't make her any less desirable. But Penelope isn't the only one after her grandfather's treasure; Sylvie, Ralph, and Andrew Karnes, distant relatives with no legal claim to the gold, are obsessed with claiming the Hume fortune for themselves. Their all-consuming sense of entitlement recklessly drives them to ambush and murder. Even if Sackett and Penelope are fortunate enough to escape this deadly trio and find the canyon where the gold is hidden, Indian legend has it that nothing will live there—no birds or insects. They say it is filled with the bones of men. From the Paperback edition.

Customer Reviews

He could outride and outshoot five men, but he was a fool for a lady in distress. The posse was hot on his trail for murder when he took time out to rescue Sylvie from a gang of desperadoes. It wasn't till she'd bushwhacked him with a shotgun and tried to poison him that he realized she was up to no good. And no sooner he had he shot his way out of her clutches than he met Penelope. After he'd heard her sad story, he should have cut and run, but somehow a Sackett never seems to learn the easy way. --This text refers to the Paperback edition.

Filled with action, adventure, mystery, and historical detail, the Sackett saga is an unforgettable achievement by one of America's greatest storytellers. In *Mustang Man*, Louis L'Amour tells the tale of a man who lived by his own law-even if it meant being branded an outlaw. Lost gold on the Santa Fe trail. Nolan Sackett was running ahead of a posse when he stopped to help a wagon stuck on the plains. But why was it stranded in the middle of nowhere with a beautiful-and murderous-young woman? Nolan was trying to find out when he ran into Penelope Hume, another attractive lady. She was the key to a cache of gold hidden in the mountains. But to get the rightful heiress there first, Nolan would have to help her beat out jealous relations, paid assassins, and a killer without a conscience... all maddened by gold fever. "From the Paperback edition.

It's been 30+ years since I first read this book and for that matter every book that Louis L'Amour ever penned that I could lay my hands on. I am well read on many subjects by many skilled writers, though Louis never failed to deliver like so many others so. This book is fast, thrilling and the plot not so easily garnered. To be fair, time has done much to erase much of the content of the story in this book and it was read quite addictively. I can devour any book Louis L'Amour and this one was no exception. I guess what I like most about Louis's style is that it is detailed just enough to place me in the exact time and place as he intended, but fluid enough to keep the story line constantly moving. I can only imagine what it would be like losing one's memory, knowing that many want to kill you; not knowing who or why. This is a classic Louis L'Amour western and like any other could have used a sequel or perhaps even a series.....

This book is about Nolan Sackett, who saved Tell's bacon in the previous Sackett Series, and the reader gets to see what he's really like. Most folks in the western parts have him pegged as an Outlaw! But, is this the reputation he wants? Folks must read "*Mustang Man*" to get a more thorough view of Nolan and then decide for themselves! This is another great read by the best Western writer, maybe of all time!, Louis L'Amour! This will not be the last time you encounter Nolan's character in the Sackett Series, so do not despair! Read and Enjoy another Sackett Novel!

I am still totally enjoying myself reading about the Sacketts. But I again have to say this story was short for the money compared to the first few books. But I'm going on. I just am enjoying reading this adventure or adventures (LOL). Louis L'Amour is a first rate writer. I can visualize every scene and feel even the weather. The only other writer I know of that can do that is S. King (the most brilliant writing of our times). It's a rare treat to read such a masterful author. Enjoy. I know you will

This tale contains more suspense than most as well as more intrigue. In addition, L'Amour's wisdom as a freedom-loving American who understands that all of the sacrifices of our forefathers can be easily lost simply by failing to stand up for ourselves and our way of life comes through in several places in the story. Read carefully so that you don't miss these quotable nuggets of truth and patriotism.

I rated the book a bit higher than maybe i should have but I started reading them when I was a younger mann. The thought took hold and made me a better person. I believe that people should stand up against bullies and thugs you know the type, these books put that belief in me. I hope by reading them it will do the same for you or your children. John Wayne loved the man what more needs to be said

When purchasing this book you need to keep in mind that it was published when this type of book tended to run to about a hundred pages. So don't expect to be up all night getting through it. However, if you want a well researched, well written, action packed adventure western then this is the book for you. I have this book in print and added it to my Kindle when it became available. I have read this one over 50 times and it is the perfect quick escape from the real world when you need a western fix. After reading this book you will know why Louis is one of the biggest selling authors of all time and you will want to read more and more of his books. Very highly recommended to anyone who likes great characters, realistic action, and a fun read.

These books are usually a quick read. Don't let that fool you. there is STORY packed in all of his books. Characters, plot surprises, some times romance and always some shoot outs and bad guys vs good guys. Settle down for a visit to the old west when men were men etc etc etc.

Books such as "The Man called Noon" is what made me a Louis L'Amour fan. I liked it so much I also bought the DVD. I rarely read/listen to something more than once, but "The Man called Noon" is one I'll enjoy for many years to come. I have to say I prefer the novel. I'm finding L'Amour books are such that lend themselves to reading more than once over the years, and I am building a library to be passed down to my family, so they too can enjoy the "greatest story-teller of all time". If you haven't read "The Man called Noon", I highly recommend it.
