Leviathan: With Selected Variants From The Latin Edition Of 1668 (Hackett Classics)

Synopsis

Designed to meet the needs of both student and scholar, this edition of *Leviathan* offers a brilliant introduction by Edwin Curley, modernized spelling and punctuation of the text, and the inclusion, along with historical and interpretive notes, of the most significant variants between the English version of 1651 and the Latin version of 1668. A glossary of seventeenth-century English terms, and indexes of persons, subjects, and scriptural passages help make this the most thoughtfully conceived edition of *Leviathan* available.

Book Information

Series: Hackett Classics

Paperback: 627 pages

Customer Reviews

Plainly the best edition of *Leviathan*. Superbly edited and indexed, with footnote passages from the Latin edition, a helpful glossary, biographical and autobiographical material, and a translation of Hobbes on the Nicene Creed, it will be an indispensable study tool. Curley's introduction is masterly.

--This text refers to the Hardcover edition.

"A scholar's edition at a student price!" --Harvey Mansfield, Harvard University
"The translation of Latin variants and the index of Biblical citations mark this off as by far the best edition of the *Leviathan*." --Thomas Pangle, University of Toronto
"Plainly the best edition of *Leviathan*. Superbly edited and indexed, with footnote passages from the Latin edition, a helpful glossary, biographical and autobiographical material, and a translation of Hobbes on the Nicene Creed, it will be an

indispensable study tool. Curley's introduction is masterly." --Jerome Schneewind, Johns Hopkins University

This is the easiest to read version of Hobbes' tome that I have seen to date. Buy it if you are even the slightest curious about this philosopher's writings.

Everyone knows about Hobbes and hears about Leviathan in any social science or history course, but not everyone gets to actually dive in and read his theories on realism. I got this for my political theory class and can honestly say that it enlightened me. I wouldn't read this for fun, but it's a good read.

An important and excellent book, evidently the foundation of modern political theory. A good antidote to Plato's "Republic" until Hobbes, to keep his head attached to his body, drags in the Christian religion.

Great edition but the binding is cheap. Not built to last. Cambridge has slightly better binding but their quality is declining sharply as well.

Got for class, but have gone back to read anyways because it was so insightful

Great read. It breaks down the complex human psyche into simple processes of thought. Can be related to the moral compass affect and or effect.

my favorite interpretation (I don't read Latin) of Hobbes , Hackett 1994. a much better one than the one studied in school. very pleased I purchased it.

Classic.
