# Travels Into Bokhara: The Narrative Of A Voyage On The Indus

## Synopsis

Sent to India aged just sixteen to make his fortune, Alexander Burnes soon revealed an extraordinary talent for languages, combined with a boyish charm, insatiable curiosity, and irrepressible enthusiasm. By the age of 26 he had so impressed his superiors that he was entrusted with the task of delivering a gift of horses from King William IV to the Maharajah of Lahore. In reality he was acting as a diplomat and spy. Having succeeded, he was then dispatched on a much more dangerous mission, to explore the political and ethnic realities amongst the Khanates of Afghanistan and Central Asia. This travelogue brings the heady sense of excitement, risk, and zeal of Alexander Burnes' missions.

Captain Sir Alexander Burnes, FRS (16 May 1805 - 2 November 1841) was a Scottish traveler and explorer who took part in The Great Game. --This text refers to an alternate Paperback edition.

Now, this book is not couched in modern language. But it's a fascinating story and clarifies current dilemmas in foreign relations. It's worth a read.

Well written and entertaining, Alexander Burnes' tale of his journeys through present day Pakistan and Afghanistan, ending up in the historical city of Bokhara. This book is referred to frequently in Peter Hopkirk's book 'The Great Game'. An exceptional read for anyone interested in the early days of British Colonialism and their competition with Russia for commerce and expansion of influence.

I just have been wandering over its pages, but as soon as can will read it, as it seems highly interesting to know more about the "Great game"

Very interesting read
