Customer Reviews

The manual is good for the price. It is very simple; a starter for beginners. It depends entirely on visuals, with no explanation of the process, so it might be a little discouraging to some students. The first drawing (Draculaura) makes a big head in the first three steps, then unexpectedly the size of the head is reduced starting with the fourth frame. I feel the author's intention was to have a bigger figure to follow better the details, but it might be somewhat confusing when you change sizes. You get what you pay.

I am glad I got this.

This book was very disappointing. Short, No variety, and not much instruction.

If you do a google search of Chibi, most of the tutorials found here, appear for free. Don't bother buying this.

If you like being told what to draw then you should get this. If you want to be able to draw your own ideas like me, DON'T get this!!!

I chose this rating cause it shows me ask the different characters from adventure time mlp Dr who and monster high!~ ~ ~

I like the look of the finished product but it doesn't really help you get there unless you draw it the way they draw it.
