Get Rid Of Your Accent General American: American Accent Training Manual

Synopsis

This audiobook is a leading accent-reduction toolkit with practical exercises to master a general American accent. It contains explanations on how to form correct English sounds. The audiobook provides extensive practice with words, sentences, and funny verses. This audiobook is compact and easy to use with its 44 short lessons, each devoted to a single phoneme. For each phoneme, there are a list of words containing the target sound, a list of sentences, a few verses, a few tongue-twisters and some articulation exercises. The more you listen, the better your pronunciation becomes, because you get a feeling of how words should be pronounced. After the listening phase, try to repeat after the tape as many times as you can: again, practice makes perfect! A bit every day is much better than a lot only once a week, so try to be constant and all your efforts will be repaid. You'll soon see that the right pronunciation will come perfectly natural to you. The plusses are that you can study pronunciation whenever and wherever you are (during your commuting time, for example). Another very nice feature is that the verses and tongue-twisters are a bit silly and very amusing, so you won't get bored!

Book Information

Audible Audio Edition

Listening Length: 2 hours and 18 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Olga Smith BATCS

Audible.com Release Date: July 8, 2015

Language: English

ASIN: B011CHDJPM

Best Sellers Rank: #66 in Books > Audible Audiobooks > Nonfiction > Language Arts &

Disciplines #111 in Books > Reference > Words, Language & Grammar > Speech

Customer Reviews

Excellent!

It is great!

It doesn't come with audio, so you have to pay for the ebook and then pay again for audio book.
Double Whammi.

The problem with this audio book is that it doesn't give any time for you to practice. Its narrates one sentence after another with any break or little break. . Some areas it gives time but its too little. Not sure if it was trying to reduce the size of the Audio file. I have to keep on pause and start the audio book.

Finally! Get Rid of your Accent for American English! I've talked to several people who have wanted this for a long time. For my own sake, I'm a native speaker, born in California, but I look forward to using this to make my own speech crisper and clearer. Also, I want to recommend it to many friends who are foreign-born and have serious trouble being understood. Hurray!
