## Customer Reviews

A little disappointed that the book was used. It was my understanding I was ordering a new book. Since I saved a lot vs. the bookstore I am happy about that. However, in the used condition all of the review tests inside were completely filled out, which will be distracting for me when I need them for review....really people if you plan on re-selling your textbook you should have the courtesy to not write in pen! If you plan to keep them for reference pen ahead.

This Textbook has prepared me to pass my CNA test. It has everything to offer in order to pass your CNA test.

I purchased this book to gain information about becoming a CNA and I'm very glad that I did. After searching the internet about CNA job info, I found this book to be the most informative and useful with regards to actual duties and responsibilities of a CNA.

Helped me get my CNA license which a brain tumor took away from me. Damn Tumor!

great book

ok

Seller did not mind giving me more information on it's condition. The book was as explained "nearmint"! Thank you.

Seller described item just as it was delivered. Price was fair actually I believe I did get a good deal. Delivered in about 10 days as stated on the "rates and delivery" content. Overall I am absolutey satisfied with the seller and transaction.
