Conversation Cards For Adults, Nostalgic Items Reminiscence Activity For Alzheimer's / Dementia / Memory Loss Patients And Caregivers 52 Cards

Synopsis

New for 2017! Shadowbox Conversation Cards were developed by an Activity Director to encourage individuals experiencing memory loss to reminisce and converse about a particular aspect or experience from their lives. The "Nostalgic Items" deck contains 52 two-sided 6" x 9" cards. The front of each card features a vivid, full-color photograph-isolated on a white background to eliminate confusion while allowing the user to focus entirely on the image-and the corresponding name of the item printed in bold, large-print text. The back of each card features nine questions-a combination of (4) closed-ended, (2) open-ended, (1) either/or, and (2) "Did you know" trivia questions. The questions are opinion-based-purposely created to have no right or wrong answer. Our Conversation Cards are an ideal engagement activity for Caregivers, and Family Members, and Activity Directors. These are super for doing activity with person with dementia. Use the questions on the back, more or few depending on the person, to help you create a conversation. Their other conversation cards

and their books are also the best around, in my opinion.
