Customer Reviews

The versatile reference guide gives you the most up-to-date cost information available to tackle any kind of electrical estimate. Improve your estimates with this all-inclusive guide.

Good information, up to date, and generally complete for most electrical work. However, for medium voltage power line construction, there are a lot of gaps in the work. Some of the items listed in the Utilities section are not really applicable for medium voltage work. I use it as far as it goes, but must fabricate my own costs for the missing items.
