# Insight Guides: Explore Malta (Insight Explore Guides)

## Synopsis

Explore Malta is the latest title in this popular series from Insight and is the ideal companion when discovering this exciting island: a full-colour guide containing 14 easy-to-follow routes through the island's many interesting neighbourhoods, from beautiful Valletta and the former capital of Mdina with its medieval streets to Marsaxlokk fishing harbour and the dazzling azure waters of the Blue Grotto sea cave and its inhabited sister islands of Gozo and Comino. Explore Malta is a concise, full-colour travel guide to this Mediterranean island, combining inspiring photography with insider tips to help you uncover the best of Malta. Insight's trademark cultural coverage perfectly sets the routes in context, with introductions to Malta's cuisine, shops and its nightlife. The best places to eat and drink are highlighted in each route and in the directory section, which also contains a wealth of useful practical information, including a range of carefully selected hotels to suit all budgets. All routes are plotted on the useful pull-out map, and evocative photography reveals Malta's unique character.

## Customer Reviews

The best routes around the city.

Insight Guides wherever possible uses local experts who provide insider know-how and share their love and knowledge of the destination.

The guide is slightly wider than the usual pocket guide format, which made for easier to read text and bigger photos but that will make it harder to fit in a pocket! Guide does a fair job of giving enough detail to plan where to go and what to do. Lots of big photos showing whats on offer and the supporting maps are provided along side the text as the book works it way geographically around the islands. It sensibly doesnt waste much space on 'where to stay' or 'where to eat' because those logistics now well served by user review websites. There is also a decent historical and cultural section to give the background context for your holiday. I reckon it could be a bit improved by having more detail (and less photos) in the suggested 'best of lists' for historical buildings, arts, outdoors activities etc in that upfront section to help guide what you might like to be doing. I was thinking of visiting as part of a larger winter holiday but the guide made malta look like its prime tourism is for european summer sea-side vacations, so i ended up deciding not to visit so I guess the guide did its job of providing me enough information to allow a decision on what to (not) do/see.safe travelsdavid in melbourne australia
