Alien Agenda is the silk thread leading the way through the maze of UFO literature into the heart of the UFO controversy. While he begins with the premise that the existence of UFOs cannot be denied, Jim Marrs (author of Crossfire, the mother of all John F. Kennedy assassination conspiracy books) boldly strides into the battle over what UFOs are and why they are here. Marrs's investigative skills are invaluable in this re-examination of questions that have been overlooked, unaddressed, or unsatisfactorily resolved. --This text refers to an out of print or unavailable edition of this title.

Jim Marrs is best known for *Crossfire: The Plot That Killed Kennedy* (1989), the book that Oliver Stone's film *JFK* was partially based on. Now Marrs attacks new mysteries and conspiracies in this extensive review of UFO history and government cover-ups. After describing his own UFO sighting near Jackson, Mississippi, in 1952, Marrs recounts his involvement with other UFO cases as a newspaper reporter and his suspicions that the U.S. government knows much more about aliens than it will admit. As his title indicates, the author has concluded that UFOs are piloted by extraterrestrials of various types and with diverse motives. However, rather than taking that conclusion for granted, Marrs guides his readers through 50 years of UFO history that includes some less-traveled byways, off-ramps, and dead ends. He incorporates an ample amount of information from UFO books of the 1960s and 1970s--strange lights on the moon, the ancient-astronaut theories of Erich von Daniken, cattle mutilations, Nazi saucers at the South Pole, the contactees of the 1950s--and updates it credibly with UFO data from the 1980s and 1990s, providing a reasonable survey of abductions, secret underground UFO bases, the MJ-12 group, crop circles, remote viewing, and channeling. How can something as momentous as contact with aliens be kept secret? In an appendix, Marrs refers to the Bilderbergers and the Council on Foreign Relations as examples of how small groups of powerful individuals can withhold information and manipulate world events. The facts are mostly accurate, and the writing is crisp and journalistic.

This is probably one of the best books ever written on the UFO topic. Jim Marrs combines documented data, personal stories and great story teller flair to make one incredibly entertaining read.

Definitely one of the BEST in the Ufology-Alien Visitation/Manipulation field. Jim Marrs breaks it down quite lucidly, if not exhaustively in a seminal work here. ALL subjects covered and evidence prominently displayed--his writing/presentation outstanding. Anyone interested in expanding their mindset and outlook on life need look no further...this is the primer you've been waiting for.

Marrs is a very thorough investigator who documents his research very well. I like his simple clear prose and tongue-in-cheek dry humor.

One of most aware writers in the world.

Well written and researched and documented as far as I can tell. There are discrepancy's in everything, but this stuff can't help but make you think.

Jim marris is an amazing person. He researched stuff his whole life to find the truth. If you read through his books and find it all controversial or untrue, then you haven't opened your mind yet. Amazing book and amazing information.. recommended buy.

Bought as a gift for my daughter. She loves it.

Book was just as described and shipped quickly! Thank you!
