Customer Reviews

Total waste of money. My 5 year old could have told you more than what this book contains.

This is an easy good read. Very informative. A lot of the info I already knew but it gives good insight into the business and what to look for and be aware of. I would recommend even for a novice collector.

This book tells you about the basics. But even experienced dealers could still learn something from this book.

He read it, said most of it was pretty basic. Stuff he already knew. Wasn't very informative for him. If you're a beginner it may be helpful.
