## **Customer Reviews**

As someone with a close friend who experiences chronic health problems, I designed the CFS/ME/Fibromyalgia Journal for their personal use. After realising just how useful my friend found it and following requests from his friends at a support group for copies, I decided to publish it so that others could utilize the illness specific sections. It proved to be extremely popular, so further illness specific journals have been designed with the same aim in mind. From Lupus to ME to Heart Failure to HIV. Many chronic health conditions though medically completely different in essence, have symptoms in common : pain, fatigue, physical restrictions, that can impact on day to day functioning. Using these journals may help to identify triggers, help to pace and possibly become a resource to provide your medical health professional a detailed personal picture of what you experience day to day, especially helpful for fluctuating conditions. They are non-profit so that as many chronically ill people as possible can have affordable access to them. Besides these wonderful little journals, I write fiction. One of my books, 'Fable's Golden Ring' is a fantasy novel which I actually got the idea from during a rather adventurous nightmare! I tend to jot down my more adventurous dreams in my dream journal (another useful book!), several years ago, after noting down details of a rather colourful dream, the seed for Fable's Golden Ring was planted. Four hundred and odd pages later, it came to fruition and was so much fun to write! If you read it, I hope you enjoy! Good luck and good health.

I am using it every day to track my lupus symptoms and it ha been very helpful!

I love this journal so much for being able to accurately recording my pain and symptoms. Had to

order another.

very good to keep track of the the symptoms by day and medical records

Great journal fits my needs.

This is the second time I've had this Journal, filled my last one but being pretty cheap to buy it's worth it. Really helped me to see what aggravates my symptoms. Handy sections to remind you about appointments and results, no doubt will be buying again as it is really useful unlike the ones you get with just lined pages! I took my last one with me for an evidence based diary when applying for financial aid and it was so useful set out in neat sections with body diagrams highlighted was brilliant as I would have forgotten to mention half of it with being so stressed!
