Customer Reviews

I'm a big fan of Americas Test Kitchen and I have a good number of their cook books. This one was a total waste. The vast majority of the recipes are repeats, and, to make matters worse the book is really limited when it comes to freezer meals. Out of 300+ pages, only 33 are devoted to meals that can be stored longer than a few days. I regret this purchase.

So helpful when planning your work night dinners in advance!! I was able to prepare all my meals on

Sunday for the up coming week!!

Love this cook book! Amazing ideas for those of us working 40+ hours as well as busy stay at home moms. Lots of ideas on how to pack your freezer with quick, easy meals. And its all so tasty.

You can never go wrong with books from America's Test Kitchen; this book will make you weeknight dinner-planning a breeze.

I have my standard cookbooks and frankly didn't think I needed another cookbook. After all there is so much you can get off the internet. However, The Make Ahead Cook has a lot of really helpful information as well as great recipes. We all have busy lives and the tried and tested information to allow me to cook ahead or re-use leftovers in a different way so everything still tastes fresh.

wonderful recipes

Good cookbook, lots of great info and recipes!

Single cooking can be a real pain. This book is helpful. 1 Straight-from-the-fridge recipe, 1 crockpot recipe, and one from-the-freezer-to-oven receipt has gotten me through two weeks of lunches and dinners. If you're a geek like me, you can appreciate the scientific method behind all of America's Test Kitchen recipes.
