Grade Level: Preschool - Kindergarten

Customer Reviews

Starred Review. PreSchool-Grade 3 *When Gerald cannot stop sneezing, he is sure he is allergic to pigs. His effervescent best friend takes things in stride until the fits of sneezing threaten to end their friendship. When Gerald sees Dr. Cat, he decides that his continued sneezing means he is also allergic to cats. When the doctor informs him that he is sick with a cold, the elephant is elated and rushes to tell his best friend. Unfortunately, Piggie now has a cold. The spare colored-pencil drawings are devoid of background detail. Text is spare too, with speech bubbles against the white pages. Both are simply perfect. The focus is on the characters and their interactions. The illustrations in this case of mistaken logic are very funny, with Piggie being repeatedly blown off her feet and Dr. Cat climbing on Gerald's head to take his temperature. Willem's knows how to create rich humor with few words and minimal art.* *Mary Hazelton, Elementary Schools in Warren & Waldoboro, ME Copyright © Reed Business Information, a division of Reed Elsevier Inc. Elephant and Piggie are back, in their tenth mini-drama. In this episode, Elephant sneezing convinces him that he is allergic to pigs and therefore must be apart from his friend forever! Doctor Cat diagnoses the sneezes as a cold rather than an allergy. Excitedly, Elephant rushes to tell Piggie the news, and we see in the last frame and the endpapers that Piggie now shares her friend's illness. Like a popular TV situation comedy, the combination of the familiar (the expressive comic-book art, the limited vocabulary of only 71 unique words) with the new (a fresh dilemma with the friendship at the core) will please current fans and draw in new ones. Pair with any of the many other easy-reading titles featuring dynamic duos dealing with the ups and downs of friendship. Preschool-Grade 1. --Randall Enos

My Son was given a Mo Williams book for his 3rd birthday.. He loved it..and laughed at the facial expressions that Elephant would make. I bought him more books, and he loves each one. My son just turned 6 these Mo Williams books are still his favorite books. Always asks me to read them to him. Still cracks up each time.They are very well written and very cute stories. The pictures are very clear and cute. Especially Elephant's expressions and what he says, makes my son laugh every time. Im using these books now to help him read, and he is reading well each time.Highly Recommend these books.. All of them.. :)

My 4.5 year old LOVES this book. She finds the sneezing parts hilarious. She recognizes some of the words (sight words) and at this point has the whole book memorized because we've read it approximately 1003498 times. Don't buy it for the story, buy it for the fun factor.

My daughter and her preschool buddies love this series. Got it for a friends birthday gift. They were happy =) simple sentence structure and great lessons hidden in the story

Mo Willems may be the very best writer of children's books ever!!!The words, illustrations etc make this a great book that preschoolers can even begin to "read" it themselves simply by looking at the illustrations!

We love Elephant and Piggie books. They are easy for beginning readers to read. And they make fabulous read-aloud books. As an adult, I find them hilarious. The kids laugh and squeal out loud as

I read to them. In this book, Elephant is convinced that he is allergic to pigs, which is horrible news because his best friend is a pig. He goes to the doctor, a cat, who also makes him sneeze. He is relieved to find out that he is not allergic to pigs, but has a cold, which he has now given to his friends.

My grand daughter loves this series of books.

We love elephant and piggie!
