Customer Reviews

Not only is this book terribly overpriced, it's not even a book. It's a bunch of super-thin paper that you're supposed to put in a binder for 'ease of use.' A binder is not easy for me to carry back and forth to work-- a book is. Additionally, the definitions of basic terms are so convoluted that it leaves them unrecognisable. Exams in my class based on this book's content are very difficult. While the leadership evaluations are interesting, there are most certainly better OB books out there, and I wish my professor had selected one of those.

I had to have this textbook for MGMT 317 at Embry-Riddle Aeronautical University - WorldWide. It was MUCH cheaper to rent it than to buy it.

Purchased this book for class. It is a great foundations book for those unfamiliar with OB. It is full of typos which cause me to lose focus often.

Yes, it's a text book and I can read it.

got the Kindle version and then downloaded the Kindle app for free on my PC and Mac so I have the book on both! Great cheap alternative to the print version. THANKS FOR SAVING ME MONEY

Provided good content and concepts.

Received the book in great condition! Make sure you read fully! It's a loose leaf book so I had to buy a binder to go along with the book.

These publishers are awful to charge so much.
