Customer Reviews

Acclaimed bird and nature authorities, Donald and Lillian Stokes have written more than 22 books. They divide their time between Carlisle, Massachusetts, and Sanibel, Florida.

Not knowing much about bats and wanting lots of photos for the giftee to share with grandkids -- this book fits the bill. I can't speak for accuracy, but the pictures are nice :).

Great small coffee table book with a lot of good info/facts. We love our bats and are planning to build bat houses this summer.

Terrific!

This arrived on time and as described. I still haven't received the bat house, so I haven't put the ideas into practice. I would recommend it for anyone considering a bat house. It's enough info but a

pretty quick read.

Great handbook! Went well with the bat house that was a Father's Day gift. Arrived on time. Pictures and information provided with this book are awesome! Never knew so many bat species existed in southeastern MI!

Book is a bit of a dry read naturally, but it's very informative and has great pictures.

Perfect book 4 anyone starting with bat houses... bats in general!The book has been really helpful to me on where I live & the bat population here in Northern California!Ã¢Â•Â£Ã¢Â•Â£

I didn't know nothin' bout bats until I got this informative tome. Now I knows everthing and with this little book in the bathroom, I feel my time is really being used as it should be. May start reading this to the bats, they appear to be intelligent little mammals so it might really work!
