Melody Carlson has written more than 200 books for teens, women, and children. Before publishing, Melody traveled around the world, volunteered in teen ministry, taught preschool, raised two sons, and worked briefly in interior design and later in international adoption. "I think real-life experiences inspire the best fiction," she says. Her wide variety of books seems to prove this theory.

We have a ten-week-old nephew and I wanted to get him a little book of prayers for babies since he didn't have anything like that. My sister said this type of book would be perfect and I decided to send this one to them since it had good reviews and was reasonably priced. This book is really cute and perfect for a baby's first book of prayers! The first thing you will want to know about it is that it's

smaller than expected but has a lot of beautiful prayers. There were no measurements provided on the product page but it measures about six inches tall. It has a puffy front cover, hardcover back and smooth, thick pages. The pages aren't a hardcover feeling though. It has a page for you to write who it's to, from and the date given if you want. The book has 41 total prayers that are short, sweet and take about ten seconds to read so you can read more than one! The prayers start in the morning, go throughout the day, and finish at bedtime. On the left side of the page is a picture that goes along with the prayer and on the right side is the prayer. There are 93 pages total in this book and it's printed in China. Overall, I'm happy with this book since it's just what I hoped even though it's smaller than expected. It's still cute and reasonably priced so you can get another gift too if you want for a baptism or just a new baby gift. I read several of these prayers to my nephew and my sister has it on her bedside table to read at night. If you are looking for a cute prayer book for a baby, this is a good option! Just know it's smaller than expected but still worth the cost!

This baby prayer book is good quality and cute. The cover is strong and the pages are crisp. The book is great for my new baby Godson who got baptized the other day. This will sit on his little kiddie bookshelf for years, and I hope that when he is older I can read it with him and pray with him! However, the book is MUCH tinier than I anticipated. I would say the book is only about 6 or 7 inches tall and only 3 or 4 inches wide. The font size and layout would be more appropriate for an older child (5 or so) and is not at all usable or I would guess immediately enjoyable for an infant or younger toddler. The quality of the prayers are better than the more infantile style of these books, though. So it's a tradeoff between having better prayers but in a book that is better adapted for a slightly older young child. The seller should add a picture showing the relative size of the book (or put the size in the description) and a picture of the inside to demonstrate text size.

okay book. bought as a baptism gift, was a bit disappointed with size and prayers. was hoping for some traditional prayers but its a couple of prayers for playing, eating, waking, etc. still gave it to my girl friend because the concept is nice! and its a good starting book to say prayers with your baby

Overall I was very excited about the product. The only thing was is that the pages on the inside were printed upside down and in reverse order as if the pages were glued in incorrectly. I was very upset when receiving this product because there was no way of fixing it. I know that it was probably a one time deal but still I am glad I checked out the book BEFORE giving it as a gift.

The front cover is actually padded, and the whole book is very well constructed. While the book is smaller than I expected, it's good for small hands (to be fair, the dimensions are listed in the description). I was pleasantly surprised with the page where I could write in the recipient's name and the date. I bought this as a baptism gift, and am very pleased with it. Baby's First Book of Prayers.

A precious little book for children. I'd say for toddler age to about 5 mostly. But there's no such thing as teaching them to pray too early ;-) I bought these for my baby due in two days!

I purchased this for my good friend. Her son was getting baptized and this was the perfect gift for the occasion. There was a place to write on the inside of the book- to and from, and also the date of the baptism. I put this in a bag along with a stuffed elephant animal. My friend loved it and thought it was a nice gift.

The prayers are short and sweet, and my son likes it okay, but I'm only giving this 3 stars because it's not a board book. I probably should've realized that, but it's for babies. I mean, my son eats and tears everything still, and he's 18 months old. I tucked this book away for when he's older because if I get it out, he wants to hold it, and that's going to lead to ripped pages. Maybe it should be "Pre-Schooler's Book of Prayers." I wish it were a board book.
